

Internship Letter of Recommendation

To Whom This May Concern,

I am proud to offer my recommendation of Christopher Brokenshire (Chris), whom I have been working with for the past 3 months at Visual Alpha, a Tokyo based B2B tech startup providing data management and reporting automation services to institutional investors.

Chris joined Visual Alpha Tokyo office as an intern from the beginning of July, 2023, during the summer break of his college. His role is developing and deploying a solution for parsing unstructured data from complex financial documents, with other interns, under the guidance from our lead software engineers.

Even though Chris was not assigned to be the lead role in solution design, he took up the responsibility after the leave of intern in charge and came up with a proposal which can potentially achieve much better results and also greatly simplify the solution. Chris actively sought feedback from key members of the team, and rigorously tested possible approaches in order to solve many roadblocks encountered. Eventually, he could present a viable solution within a week that proved to be much better than the previous one which we have spent 6 weeks building.

As a result, we have decided to keep him in the team even after his return to college.

During his internship at our company, I have experienced an individual who shows up earlier than asked, works hard, and carries himself in a polite, respectable manner. In addition, Chris is exceptionally driven and talented at solving hard problems while always maintaining a positive attitude. Therefore, it is without reservation that I recommend Chris for this internship position.

If you have any requests or questions do not hesitate to contact me.

Best,

Jeffrey Tsui
